

We applaud the efforts of the community advocates who worked tirelessly for years to ensure passage of this Source of Income ordinance and applaud the City Council for passing this measure. This Source of Income legislation is another step towards building an equitable future for all Providence community members. The Providence Human Relations Commission looks forward to assisting with enforcement and education of the ordinance. We commend Mayor Elorza who for signing this ordinance into law and urge the state of Rhode Island to follow Providence's lead and pass Source of Income legislation through the state legislature.
