

3. CASE 22.091, 19-23 JAMES STREET, Oliver Kane House, 1814 (COLLEGE HILL)

Federal double-house; 2½ stories; clapboard; gable roof; 9-bay facade; two doorways under bracketed entablatures each reached by a flight of wooden steps.

CONTRIBUTING

Arrow indicates 19-21 James Street.

Arrow indicates project location, looking north.

**Applicant/Owner:** Drew Carlin, Turnstone Holding LLC, 51 Savoy Street, Providence, RI 02906

**Architect:** Jack Ryan Architect, 22 Bianco Court, Providence, RI 02909

**Proposal:** The scope of work proposed consists of Major Alterations and includes:

- the replacement of existing and installation of new windows and the modification/infill of openings; removal of dormers on the rear slope of the roof and installation of new dormers; addition/modification to the rear elevation to include new entry doors and hoods and garden bay windows; removal of existing laundry room wing and the construction of a detached three-bay garage with dormers (see attached scope-of-work).

**Issues:** The following issues are relevant to this application:

- The application if for conceptual review;
- The proposed work will not be visible from the public rights-of-way;
- The proposed modifications take a modernist approach that based on the lack of visibility and the intention of rehabilitating this property from a multi-unit rental to condominiums is an appropriate modification, an opportunity to introduce a modern element that over time may gain significance in its own right, while respecting the "public" facades of the property that will be visible to the public; and,
- Plans and photos have been submitted.

**Recommendations:** The staff recommends the PHDC make the following findings of fact:

- a) 19-21 James Street is a structure of historical and architectural significance that contribute to the significance of the College Hill local historic district, having been recognized as a contributing structure to the College Hill National Historic Landmark District;
- b) The application for Major Alterations is considered complete for conceptual approval; and,
- c) The work as proposed is in accord with PHDC Standard 8 as follows: as the proposed alterations are appropriate having determined that the proposed construction is architecturally and historically compatible with the property and district having an appropriate size, scale and form that will not have an adverse effect on the property or district, as the proposed modifications will not be visible from the public rights-of-way.

Staff recommends a motion be made stating that: The application is considered complete. 19-21 James Street is a structure of historical and architectural significance that contribute to the significance of the College Hill local historic district, having been recognized as a contributing structure to the College Hill National Historic Landmark District. The Commission grants conceptual approval of the proposal as submitted having determined that the proposed alterations are appropriate as the proposed alterations are architecturally and historically compatible with the property and district having an appropriate size, scale and form that will not have an adverse effect on the property or district, citing and agreeing to the recommendations in the staff report, with the applicant to return to the Commission for final approval.

Application for Certificate of Appropriateness

19-23 James Street

Oliver Kane House – 1814

Scope of Work:

Exterior repair of wood clapboard siding and wood trim. Wood siding and trim to be repaired where possible and replaced with new wood siding and trim of the same size and profile where needed.

Existing windows to be replaced. Existing windows are Brosco replacement windows. New windows to be new construction windows. 6 over 6 simulated divided lite. Aluminum storm windows to be removed. No original wood windows currently remain.

Existing wood window and entry door trim to be repaired where possible and replaced when needed with new wood trim to match the profile and size of the existing.

Exterior stairs on James Street to be repaired and material replaced where necessary with new material to match existing.

Existing window locations on the west and east elevations that are to be removed their window trim will remain and be infilled with clapboards.

Window locations on the second-floor north elevation to be added and relocated. These windows and trim will be the same as the other windows in the house.

Existing windows and doors on the first-floor north elevation to be reconfigured. Three new rear entry doors with roof structure and three new rear addition garden bay windows.

Existing basement entry door and roof structure on west elevation to be replaced with new entry door in same masonry opening with a new roof structure.

Existing asphalt shingle roofing to be replaced with new asphalt shingle roofing.

Existing aluminum gutters and downspouts to be replaced with new painted aluminum gutters and downspouts.

Existing brick masonry chimney to be removed and a new roof structure to be built in its place of the same size and shape of the existing chimneys. To be clad in a thin brick veneer.

Two small gable dormers on the north facing roof to be removed and replaced with three shed dormers. End of dormers to be have casement windows without simulated divided lite.

Existing laundry room wing with slab on grade to be removed.

New construction three bay garage with three dormers to be constructed in the rear yard.

New configuration of parking in rear yard and addition of garden space immediately to the north of the building.

**Exhibit 10:**

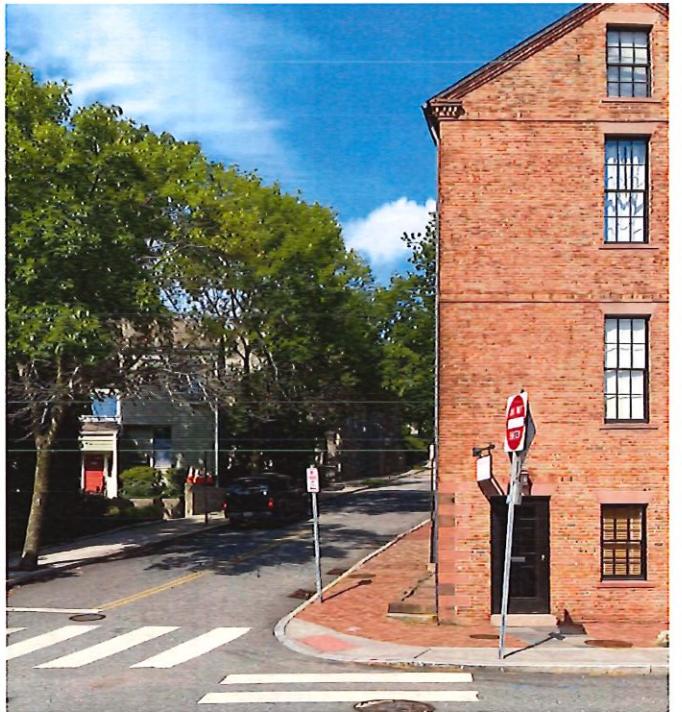

Jack Ryan of Jack Ryan Architect, LLC will be a representative for the owner and applicant and will appear on their behalf at the public hearing.
